\* = Specify Color

\*\* = Foam Part Numbers are followed by one of the following Color Designating Suffixes:  
 B - Black                      P - Pink  
 W-White                      Y - Yellow

Specify Color Suffix when ordering replacement foam.

NI = Not Illustrated

NOTE: Arm Pad Cover (REF. 13) is an optional part. It is not included with all Manco Kart Models

# THROTTLE CABLE INSTALLATION

**ASSEMBLY:** Pass the throttle cable through the cable retainer and butt the throttle cable housing end against the inside shoulder of the cable retainer. (The cable retainer is to be securely fastened to the engine with the clamping screw.) Pass the end of the Throttle Cable through the hole in the cable stop. Before tightening cable stop screw:

1. Ensure spring anchor, spring, and cable are installed as illustrated above.
2. Ensure throttle pedal is in rearward (idle) position.
3. Ensure that there is no slack in the throttle cable with *no* tension applied to return spring.
4. Ensure cable housing is inside and against the cable retainer.
